## Reading Survey

**Parents:** In order to plan a program that inspires and captures the imagination of our students, we intend to provide literary materials that are both age appropriate and of interest to them. Please spend a few moments reviewing the following questions with your child. There is no right or wrong answer, including "I don't know."

If your child is able to read and write, please allow him/her to respond to the questions on paper. Otherwise, please record answers exactly as he/she states them. If your child has never been to school, skip #8.
